

Mette Martina Broholm (Poulsen)

Publications, September 2019

Papers in ISI journals:

Publication about the 3D modeling interpretation of three convergent-flow tracer tests in fractured limestone (Geo18s, Geo18s_pre, Geo19d) - (2019).

Publication about the development of a conceptual and numerical model for a contaminant plume in fractured limestone, including continuous plume attenuation due to matrix diffusion (2019).

Wen, C., Fjordbøge, A.S., Dong, J., Uthuppu, B., Jakobsen, M.H., Broholm, M.M., 2019. Transport of Polymer Coated AuNPs in Porous Media: effect of surface property and water velocity. Submitted to Chemosphere.

Murray, A.M., Ottosen, C., Maillard, J., Holliger, C., Johansen, A., Brabæk, L., Kristensen, I.L., Zimmermann, J., Hunkeler, D., Broholm, M.M., 2019. Chlorinated ethene plume evolution after source thermal remediation: determination of degradation rates and mechanisms. Accepted for publication in Journal of Contaminant Hydrology.

Fjordbøge, A.S., Uthuppu, B., Fischer, S.V., Jakobsen, M.H. Broholm, M.M., 2019. Mobility of electrostatically and sterically stabilized gold nanoparticles (AuNPs) in saturated porous media. Environmental Science and Pollution Research, DOI 10.1007/s11356-019-06132-8, online August 10th 2019.

Murray, A.M., Maillard, J., Jin, B., Broholm, M.M., Holliger, C., Rolle, M., 2019. A modelling approach integrating microbial activity, mass transfer, and geochemical processes to interpret biological assays: An example for PCE degradation in a multi-phase batch setup. Water Research, 160, p. 484-496.

Ottosen, C.B., Murray, A.M., Broholm, M.M., Bjerg, P.L., 2019. In Situ Quantification of Degradation Is Needed for Reliable Risk Assessments and Site-Specific Monitored Natural Attenuation. Environmental Science & Technology, 53, 1, p. 1-3.

Mosthaf, K., Brauns, B., Fjordbøge, A.S., Bjerg, P.L., Binning, P.J., Broholm, M.M., 2018. Conceptualization of a limestone aquifer by multiple dedicated hydraulic and tracer tests. Journal of Hydrology, 561, s. 532-546.

Ottosen, C.B., Rønde, V., Trapp, S., Bjerg, P.L., Broholm, M.M., 2018. Phytoscreening for vinyl chloride in groundwater discharging to a stream. GWMR, 38, 1, p. 66-74.

Clausen, L., Broholm, M.M., Gosewinkel, U., Trapp, S., 2017. Test of aerobic TCE degradation by willows (*Salix viminalis*) and willows inoculated with TCE-cometabolizing strains of *Burkholderia cepacia*. Environmental Science and Pollution Research, 24, p. 18320–18331.

Fjordbøge, A.S., Janniche, G.S., Jørgensen, T.H., Grosen, B., Wealthall, G., Christensen, A.G., Kerrn-Jespersen, H., Broholm, M.M., 2017. Integrity of clay till aquitards to DNAPL migration: Assessment using current and emerging characterization tools. GWMR, 37, 3, s. 45-61.

- Badin, A., Broholm, M.M., Jacobsen, C.S., Palau, J., Dennis, P., Hunkeler, D., 2016. Identification of abiotic and biotic reductive dechlorination in a chlorinated ethene plume after thermal source remediation by means of isotopic and molecular biology tools. *Journal of Contaminant Hydrology*, Vol. 192, p. 1-19.
- Broholm, M.M., Janniche, G.S., Mosthaf, K., Fjordbøge, A.S., Binning, P.J., Christensen, A.G., Groen, B., Jørgensen, T.H., Keller, C., Wealthall, G., Kern-Jespersen, H., 2016. Characterization of chlorinated solvent contamination in limestone using innovative FLUTE® technologies in combination with other methods in a line of evidence approach. *Journal of Contaminant Hydrology*, Vol. 189, p. 68-85.
- Hansen, B.H., Nedergaard, L.W., Ottosen, L., Riis, C.E., Broholm, M.M., 2015. Experimental design for assessment of electrokinetically enhanced delivery of lactate and bacteria in 1,2-cis-dichloroethylene contaminated limestone. *Environmental Technology & Innovation*, Vol. 4, p. 73-81.
